Terece, bir Sedef Ahşap markasıdır.

biz kimiz

Sedef Ahşap 1978'den Günümüze...

1978 yılında ülkemizin en kaliteli kerestelerinin yetiştiği Kastamonu bölgesinde kurulan ve küçük bir ahşap kapı şirketi olarak faaliyetlerine başlayan Sedef Ahşap, günümüzde kapı üretiminde dünya markaları arasında yer alarak tüketicilerinin tüm ihtiyaçlarına profesyonel çözümlerle destek vermeye devam ediyor.

Üretimde öncelikli olarak kalite standardını en üst seviyede tutmayı hedefleyen Sedef Ahşap, hizmette ve teknolojiye de çağın gereksinimlerine uygun olarak büyüyerek halihazırda 22.000 m²'lik fabrikası ve geniş stok alanlarıyla sektörün öncüleri arasında yerini alıyor. Son teknoloji ile tasarlanan gelişmiş makine parkuru ve 40 yılı aşkın tecrübeyi harmanlayan Sedef Ahşap, büyük uluslararası sipariş taleplerini karşılayarak hem adını uluslararası arenalarda duyurmaya hem de ülke üretimine katkı sağlamaya devam ediyor.

Kapı veya mobilya üretiminde istikrarı koruyarak en kaliteli ürünlerle günümüzün ve geleceğin gereksinimlerine ayak uyduran firmamız, alanında uzman ve tecrübeli kadrosuyla da Ar-Ge çalışmalarını her geçen gün büyütüyor. Gelişen Ar-Ge altyapısı ve her ihtiyaca uygun güzel, zarif ürünlerimizle değer kattığımız mekanlar da her geçen gün hızla çoğalıyor.

Doğanın izinde ilerlediğimiz sektörümüzde ona karşı saygımızı korumak, bize verdiği nimetleri ona geri kazandırmak adına sadece endüstriyel amaçla yetiştirilen ağaçları kullanıyoruz ve üretim süreci sonunda artan malzemelerimizi geri dönüştürerek temel kaynaklarımızı israf etmiyoruz. Bu noktada Sedef Ahşap ailesi olarak kaliteli, uzun ömürlü ürünler ve profesyonel hizmet anlayışıyla güçlü ve güvenilir bir iş ortağı olmaya devam ediyoruz.

İstanbul ile yardımcı bölgelerde bulunan büyük depolarımız, otomatik stok yönetimiyle tüm dünya ülkelerine sevkiyat gerçekleştirebilecek kapasiteye sahip. Özel projelerde çözüm ortağı olan Sedef Ahşap, profesyonellerin tercihi olmaya devam ediyor.

Sedef Ahşap Since 1978...

Sedef Wood was founded in 1978 as a small wooden door company in Kastamonu region where the highest quality timbers of our country are grown. Today, Sedef Wood is among the world's brands in door manufacturing and continues to support all the needs of its consumers with professional solutions.

Sedef Wood, which primarily aims to keep its quality standard at the highest level in manufacture, is currently among the pioneers of the sector by growing in service and technology in accordance with the requirements of the era with its 22.000 m² factory and large stock areas. Sedef Wood, which blends together advanced machine track designed with the latest technology with more than 40 years of experience, by meeting the demands of large international orders continues both to make a name in the international arenas and to contribute to the production of the country.

While our company is maintaining stability in the manufacture of door or furniture and keeping pace with the requirements of today and future with the highest quality products, is also expanding R&D activities with its expert and experienced staff day by day. The places where we add value are growing rapidly day by day with our advancing R&D infrastructure and with our fine and elegant products that suit every need.

We follow the footsteps of nature in our sector, therefore in order to preserve our respect to nature and to restore the blessings it has given us, we only use the trees grown for industrial purposes and we, by recycling our residual materials at the end of the manufacture process, are not wasting our main resources. Thus we, as Sedef Wood family, continue to be a strong and reliable business partner with both our high quality, long lasting products and with our professional services.

We have the capacity to carry out shipments to all countries in the world with our large warehouses located in Istanbul and auxiliary regions and with our automatic inventory management system. As a solution partner in special projects Sedef Wood continues to be the choice of the professionals.
